About Us

Automating The Vehicle Registration Experience

CVR was founded in 1992 to automate the link between states' Departments of Motor Vehicles (DMVs) and key members of the vehicle life cycle (e.g. dealerships, insurance companies, financial institutions, auctions and tag agencies). Today, we are committed to creating a better customer vehicle purchasing experience through seamless, secure digital titling and registration solutions.

TRUSTED

With support from 15 dealer associations, we process nearly 15 million vehicle transactions and 4+ million DMV inquiries annually across 17 states.

INTEGRATED

Our solutions incorporate both customer and state needs, and we are backed by the leading DMS providers in the industry – CDK Global (http://www.cdkglobal.com) and Reynolds & Reynolds (http://www.reyrey.com).

INVESTED

Our history of success allows us to devote our resources to future technology and compliance, providing dealers, customers and states with the solutions they need.
